#### **Proposal for Professional Services**

Project Name:

Pocono Township

Conceptual Design & Facility Assessment Services

205 Old Mill Road, Tannersville, PA 18372

Client:

Pocono Township Board of Commissioners

c/o Donna Asure, Township Manager

P.O. Box 197

112 Township Drive Tannersville, PA 18372

### **Proposed Scope of Services & Fees**

It is our understanding that Pocono Township would like to undertake a Conceptual Design and Facility Assessment Study for the building located at 205 Old Mill Road, Tannersville, PA. The building was formerly occupied as a classroom building by Northampton Community College. The purpose of this study is to determine how the building and site could be utilized by the Township's Administrative, Police, and Public Works Facilities and to assess the condition of the existing building and site elements in order to assist the Township in deciding whether or not to submit a purchase offer for the building and site.

**Phillips** & Donovan **Architects, LLC** will serve as the Prime Consultant and will complete the architectural services, as well as coordinate the services of our other team members. **D'Huy** Engineering, Inc. will complete the facility assessment and budget cost estimating services. **Boucher & James, Inc.** will complete the required civil engineering services. Since they are the Township Engineer, they will bill you directly for their services on an as needed basis. Therefore, we have not included any fees for their services in this Proposal.

In order to complete the Conceptual Design and Facility Assessment Study we propose to complete the following tasks:

#### **Basic Services**

#### Site & Facility Walkthrough

• In this phase we will walk around the site and through the building as a project team to,

George J. Donovan, Architect, Principal Emeritus

Date: 2 November 2018

Page: 2 of 5

 View the existing conditions and discuss specific opportunities, constraints, and ideas regarding how the existing site and building could be adaptively reused as a municipal complex.

Become familiar with and analyze the existing site and building conditions.

 Review the existing building documentation that has been provided by the seller's realtor.

chitectural:	\$ 1,100.00	
Subtotal:	\$ 1.100.00	

#### Field Measurement & As-Built Documentation

It is our assumption that the existing site and building documentation that has been
provided by the seller's realtor are of sufficient accuracy, detail, and completeness to
complete our work. Therefore, we have not included any fees for existing site or
building measurement and documentation. The information provided to us, along
with photographs of the existing conditions, will be used as the basis for our work on
this Study.

#### **Conceptual Design & Facility Assessment**

- Utilizing the information contained in the previously completed Space Needs Assessment / Program Development Phase, as well as the documents of the existing building and site, we will prepare conceptual site and building floor plan designs based on the square footages required by each department and the desired site amenities/improvements. The administrative offices, police offices, library, and community center will be located within the existing building. The public works facility will be located in a freestanding structure(s) in the existing parking lot areas, presumably behind the existing building and adjacent to Route 80.
- In this phase, our work product/deliverables will include preparation of conceptual site and building concept plans showing potential space allocations and the relationship of the buildings to each other and to the site. We will not prepare any exterior elevation designs at this time. Items to be studied will include the following.
  - Internal functions
  - Pedestrian, vehicular, and material flow patterns
  - General Space Allocations
  - Adjacency of uses
  - Special facilities and equipment
  - ·Flexibility and expandability

Date: 2 November 2018

Page: 3 of 5

 In this Phase we will also prepare our initial Facility Assessment Report. Please see attached Proposal from D'Huy Engineering, Inc. for a description of the scope of Facility Assessment services.

After completing the conceptual design and initial Facility Assessment Report, we
will attend one meeting with township representatives to review our site and
building plan concepts, as well as the initial Facility Assessment Report before
proceeding with the project budgeting / cost estimating phase.

Architectural:	\$ 5,700.00
Facility Assessment:	\$ 7,100.00
Subtotal:	\$ 12.800.00

#### Revisions

• Revisions to the site and building concepts outlined above will be completed on an hourly/as requested basis or by way of a separate proposal.

### **Project Budgeting / Cost Estimate**

- In this phase we will prepare a written architectural scope of work, outlining the anticipated construction types and finishes that will be utilized to accomplish the layout shown on the conceptual design sketches. This information will be forwarded and coordinated with the cost estimating consultant.
- Using the conceptual site and building design sketches and architectural scope of
  work report, as well as the initial Facilities Assessment Report, our cost estimating
  consultant will prepare a conceptual design / facility assessment phase budget cost
  estimate based on the various types of uses and spaces included in the conceptual
  design and the work required to convert the existing building, building systems, and
  site into a municipal complex. Our estimate will individually identify the various cost
  components related to the site and building construction. Please see attached
  Proposal from D'Huy Engineering, Inc. for a description of the scope of Cost
  Estimating services. We will attend one meeting with township representatives to
  review the cost estimate.

We will transmit information electronically to the greatest extent possible and will endeavor to minimize providing hard/paper copies.

#### Ladies and Gentlemen:

Mr. Kopelson hereby extends the time the Township has to review and act upon the Sheldon Kopelson Lot 3 Land Development Plan until December 31, 2019. Further engineering and Township review of this submission is dependent upon the final decision of PADOT with regard to the location and dimensions of the S.R. 0715 realignment project. Dear Pocono Township Board of Commissioners,

I respectfully submit my formal notice of resignation from my position on the Pocono Township Parks & Recreation Board effective Monday, December 31, 2018.

It's been an honor to have served Pocono Township in my role as Vice President and more recently interim President. As I reflect back, I am very proud of what our board has been able to accomplish over the past decade plus since my involvement. Further, I am confident that I am leaving the Board to a group of volunteers that are very competent, capable and passionate about furthering Pocono Township's Parks and Recreation mission to "permanently preserve, protect, maintain, improve, and enhance its natural resources, park land, and recreational opportunities for current and future generations."

SCR/RAP Approval with Modifications Letter

Exxon Mini Mart Facility ID #: 45-32649 Incident#(s): 47125 and 47212

Pocono Township, Monroe County

Dear Mr. Pandya:

The Department of Environmental Protection (Department) has reviewed the documents titled Site Characterization Report, received July 26, 2018, and Remedial Action Plan, received September 10, 2018, for the release referenced above. The documents were prepared by United Environmental Services, Inc. and submitted as a Site Characterization Report (SCR) and Remedial Action Plan (RAP) as required by 25 Pa. Code § 245.310 and § 245.311, respectively. You selected the Non-Residential Statewide Health Standard as the remediation standard for soil and groundwater.

The Department approves the SCR and RAP in accordance with Section 245.311(b)(2) with the following comment and modification:

• 25 Pa. Code § 245.312(a) requires that remedial action shall be implemented upon approval of the RAP according to the schedule contained in the RAP. Although no implementation schedule was provided the soil excavation work is projected to occur simultaneously with the subsequent removal of two (2) closed-in-place USTs (Tanks #001 and #003). Remedial action should, therefore, commence no later than 120 days from the date of this letter and proceed in accordance with this schedule until the selected remediation standard is attained.

Remedial Action Progress Reports (RAPRs) must be submitted to the Department in accordance with Section 245.312(b-d) by the 30<sup>th</sup> day of the month following the end of each quarter (April 30, July 30, October 30 and January 30). The final RAPR is to be submitted as part of the Remedial Action Completion Report. Your first RAPR is due no later than January 30, 2018, and should address the modification(s) noted above.

Please ensure that your RAPRs are submitted timely and address the elements described within Section 245.312(c), specifically including a discussion of the progress to date toward attainment of the selected remediation standard(s). A copy of Section 245.312 is enclosed for your reference.

Failure to implement remedial action or submit complete progress reports in accordance with the schedule outlined above may result in enforcement action by the Department. If you wish to modify any part of this Remedial Action Plan or select a new remediation standard, you must prepare and submit a new or modified Remedial Action Plan to the Department in accordance with Section 245.312(e).

Any person aggrieved by this action may appeal the action to the Environmental Hearing Board (Board) pursuant to Section 4 of the Environmental Hearing Board Act, 35 P.S. § 7514, and the Administrative Agency Law, 2 Pa.C.S. Chapter 5A. The Board's address is:

Environmental Hearing Board Rachel Carson State Office Building, Second Floor 400 Market Street P.O. Box 8457 Harrisburg, PA 17105-8457

TDD users may contact the Environmental Hearing Board through the Pennsylvania Relay Service, 800-654-5984.

Appeals must be filed with the Board within 30 days of receipt of notice of this action unless the appropriate statute provides a different time. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

A Notice of Appeal form and the Board's rules of practice and procedure may be obtained online at <a href="http://ehb.courtapps.com">http://ehb.courtapps.com</a> or by contacting the Secretary to the Board at 717-787-3483. The Notice of Appeal form and the Board's rules are also available in braille and on audiotape from the Secretary to the Board.

IMPORTANT LEGAL RIGHTS ARE AT STAKE. YOU SHOULD SHOW THIS DOCUMENT TO A LAWYER AT ONCE. IF YOU CANNOT AFFORD A LAWYER, YOU MAY QUALIFY FOR FREE PRO BONO REPRESENTATION. CALL THE SECRETARY TO THE BOARD AT 717-787-3483 FOR MORE INFORMATION. YOU DO NOT NEED A LAWYER TO FILE A NOTICE OF APPEAL WITH THE BOARD.

IF YOU WANT TO CHALLENGE THIS ACTION, YOUR APPEAL MUST BE FILED WITH AND RECEIVED BY THE BOARD WITHIN 30 DAYS OF RECEIPT OF NOTICE OF THIS ACTION.

The technical review of this document was conducted under the responsible charge of a Pennsylvania Licensed Professional Geologist. If you have any questions or desire clarification regarding the above, then please contact Kevin Dougherty, Geologic Specialist who can be reached either by telephone at (570) 826-2589 or through e-mail to kevindough@pa.gov.
